

Power BI Reporting-Suite

Simplify and supercharge your Power BI reporting with smartPM's integrated best-practice analysis pathways and report templates.

What you can expect:

Dependable Data - Your Single Source of Truth

Automatically and systematically consolidate data from various source systems

Interactive Dashboards and Reports

Uncover essential insights through on-the-fly analysis, drill-downs, filtering, and collaborative tools

Custom-tailored Visualizations

Easily customize predefined dashboards and reports to your liking, regardless of your device

Seamless Microsoft Office Integration

Maximize efficiency by accessing your reports directly in PowerPoint, Excel, Teams, or Outlook

Cutting-Edge Software Technology

Reap the benefits of innovative software development, resulting in enhanced usability and performance

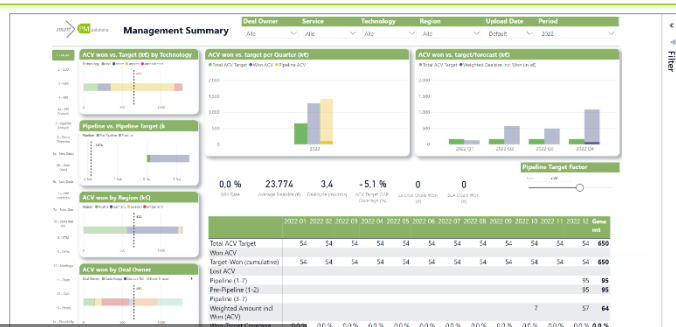

Buy-In from IT and Management

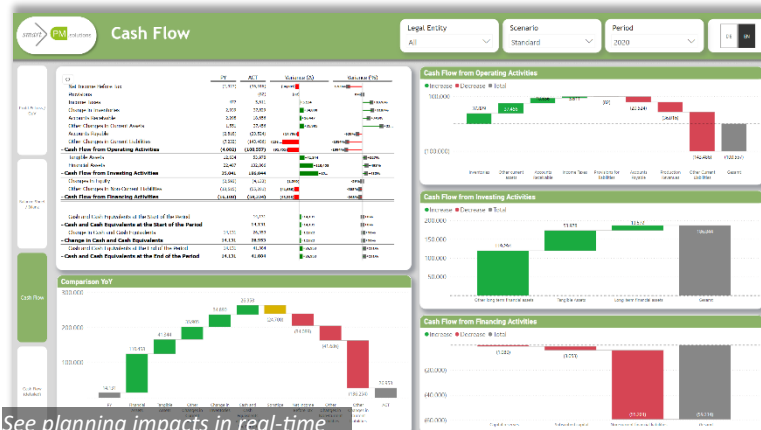

As part of the Microsoft Office Suite, you'll use reliable software with access to global online resources

A glimpse of what your dashboards could look like:

Show and interactively utilize—the PowerPoint Live integration

Seamlessly integrated in MS Office

See planning impacts in real-time
