Integrated planning in SAP SAC with the smartPM planning solutions

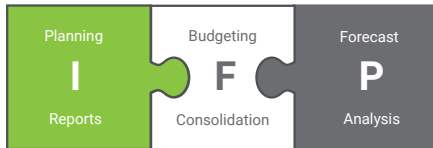

The engine for your company's success

Would you like to link all departments, ACTUAL and PLAN data in a single point of truth? Do you want all your sub-plans to interlock logically and ensure prudent, flexible and secure corporate management? This is exactly what the practice proven financial planning solutions from smartPM.solutions support.

Integrated financial planning in SAP SAC

You can think of Integrated Financial Planning (IFP) from smartPM.solutions as a puzzle that brings together all the financial parts of a company in order to obtain a complete picture of the company's financial situation. It can be seen as a closed system of P&L, balance sheet and cash flow statement, in which all parts are logically linked and automatically derived from the sub-plans. These predefined solutions are unique on the market - only available at smartPM.solutions, the specialists for planning.

Implement integrated planning in SAP SAC quickly and securely in your company

With the flexible, tried-and-tested smartPM financial planning model, you save over 50% in implementation time and costs and guarantee rapid success. You can look forward to high functionality, user-friendliness and user acceptance. smartPM financial planning is a fully integrated system for planning, consolidation, ad-hoc analyses, budgeting, reporting and forecasting. Actual, budget and forecast are automatically connected and can be analyzed at the click of a mouse.
